

# An Introduction to TLC Private School & Institute

**TLC** PRIVATE SCHOOL  
AND INSTITUTE  
NURSERY • KINDERGARTEN • PRIMARY • SECONDARY

*Where every child matters*

A secure, vibrant school community,  
**where every child matters**

Prospectus

## *Where every child matters*

The school began with a set of core values, intrinsic to what it saw as being essential for the academic and social development of its students. Through their determination, the Directors were awarded licences by the Ministry of Education and Culture, Cyprus to operate Kindergarten, Primary and Secondary Schools. A further licence allows the school to extend its services to children, young people and adults beyond the school roll.

# MISSION STATEMENT

*Students at TLC are nurtured on a journey through which they will become confident, resilient, assured young people with the knowledge, skills and attitude necessary for them to be happy and successful in whatever they choose to do in future years.*

## Directors' Note

Chris Watts  
Director

Jill Watts  
Director

*TLC Private School is about to start its eighth academic year as one of the premier private schools on the island of Cyprus with an extraordinary history. Its Directors, Chris and Jill Watts originally came to the island to retire from education but, having been approached by expatriate families, they decided to open a small school offering what parents claimed, other schools were missing.*

***The school began with a set of core values, intrinsic to what it saw as being essential for the academic and social development of its students.***

*Through their determination, the Directors were awarded licences by the Ministry of Education and Culture, Cyprus to operate Kindergarten, Primary and Secondary Schools. A further licence allows the school to extend its services to children, young people and adults beyond the school roll. Seven years on, the school has gone from strength to strength with a student body of approximately 180 young people from the ages of 3 to 18 and with a committed staff of over thirty full time equivalent experienced teachers who all have the future of the students at heart. In 2010, the school moved to larger premises at Agios Georgios and, after an extensive programme of improvements, is now able to offer a broad education with excellent facilities to students from the local and expatriate communities.*

*Despite the growth in the school, it has retained its caring, family feel whilst providing rigour and challenge within the curriculum, supported by dedicated teachers. Recognising that school isn't just about academia, TLC Private School has sought over the years to provide its students with the means to develop life skills such as teamwork and cooperation, resilience and adaptability through sport, art and community work.*

*As the school welcomes back its students for the eighth academic year, it continues to look to the future and how it can further its mission to provide the best all-round education for its students, ably supported by the teachers, parents and the community.*

*The school's popularity and limited class size means that places are always at a premium and with many classes oversubscribed, parents need to be aware that securing their child's school place early is essential and we always have a waiting list for future admissions.*

## Principals Message

A key part of my philosophy in education is to **help young people achieve their highest potential** and become equipped to make a difference

~David Lewis

*Principal TLC Private School & Institute*

I am in my third year as Principal of TLC Private School, a position I accepted after 25 years in the profession as a primary and secondary teacher, a subject head and a deputy head teacher. My experience of schools and the staff and students who populate them means that I can recognise we have something very special and unique here at TLC Private School.

Little touches like handshakes from the pupils; being asked if we're having a good day by the students; the appreciation that comes from knowing a little about each student's life to be able to engage in conversation with them, all illustrate the tight bonds that make us truly a community of teachers and learners with a proven family feel.

It's an attitude that is infectious too; new students who join us instantly feel welcome and become absorbed into the supportive and happy learning environment. We promote and facilitate academic success but believe that this doesn't just come from concentrated academic studies, it comes from being happy and healthy and enjoying variety in life. The quote from Juvenal that a healthy mind needs a healthy body holds true and the wide variety of less academic studies our children can enjoy helps to promote this ideal.

I hope I can be allowed to speak on behalf of all the staff at TLC in saying that we thoroughly enjoy working with our young people and the smiles we get in return show that they enjoy working with us.

To all our students, good luck in your academic endeavours, and we wish you a happy, fulfilling and successful academic year!

David Lewis  
**Principal**

## Teaching Staff at TLC

A school is only as good as the teachers who work there and at TLC Private School we look for a combination of factors in the teachers we employ. Qualifications are of course essential but more important to us is the teacher's own philosophy of education. That's why you'll see happy smiling faces, not just amongst the students, but also in the teachers. All of our staff sign up to the philosophy that the student comes first and that the teachers are responsible for each student's future. Teachers can often be found giving up their free time to help a struggling student or to find better ways to deliver the curriculum so the students have the best chance of success.

At TLC Private School, we want to retain excellent teachers and part of how that can be achieved is to offer continuing professional development to them so they feel valued and can work to further improve their skill set. Whether it's in-house training and development or courses from universities or other providers, the school is keen to help teachers to be the best they can, similar to its approach to educating the students.

I joined TLC Private School two years ago and it has been one of the best decisions of my life. After I joined the TLC community, my grades improved drastically, and I felt much more appreciated by the school community. I am excited for my final two years of A-levels and to see where my education will take me.

*Elias Hoy  
Head Boy at TLC Private School*

"I have achieved so much since becoming a student at TLC Private School. TLC has supported and encouraged me to do my IGCSE exams in one year. I achieved top grades and I am now the Head Girl of our school.

TLC offers every student opportunity & success!"

*Ann Katrin Olsen  
Head Girl at TLC Private School*

## A picturesque and unique setting

The school is away from crowds and traffic, yet close to many natural features and facilities that become readily available and accessible teaching and learning resources.

## Our Location

TLC Private School is located in Agios Georgios near Paphos, a picturesque, quiet setting, close to the village's small fishing harbour. At TLC, students benefit from studying in an environment with fresh air and access to the natural facilities that are very close by.

The school is away from crowds and traffic, yet close to many natural features and facilities that become readily available and accessible teaching and learning resources. Close to the school there are wonderful mosaics within an on-going archaeological excavation project whilst the shoreline is natural and rugged, serving us well for geographic and scientific studies.

**Location History:** For the historically inquisitive student, Agios Georgios is a famous place of pilgrimage in the Paphos region. Three early Christian basilicas and baths, all 6th century, were excavated in the early 1950s. Later excavations revealed an extensive unwallled settlement that occupied the neck and the south slope of the cape in the Roman and early Christian periods.

**Akamas:** The expansive nature reserve known as the Akamas, provides challenging terrain for our Duke of Edinburgh's International Award students before they embark upon the peaks of Troodos which pose a more demanding and character building terrain. Our school is recognised by the The Duke of Edinburgh's International Award Foundation as an Award Centre and we have two qualified Supervisors and Assessors who lead the award programme at TLC.

**Akrotiri:** Students are also able, with parental support, to gain membership of the No 1 Squadron ATC at Akrotiri – an aviation orientated youth organisation that promotes a practical interest in aviation and the Royal Air Force. There they aim to foster the spirit of adventure and develop qualities of leadership and good citizenship.

**Paphos Zoo:** Just 5 minutes from school we have the first licensed zoo in Cyprus, a rich resource for learning to which our students enjoy concessional rates.

**Sports Stadium:** Whilst perfectly located for learning in the natural environment, we are still within five minutes of our full sized, floodlit, FIFA approved football pitch which offers an excellent off site facility for school sports and our weekend/afternoon soccer school.

**George's Ranch:** George's Ranch is a horse riding stables and school that can be found a short distance from TLC.

**Coral Bay:** Just a five minute drive from the school, you will come to the beautiful Coral Bay area, where there are many water sports facilities and centres, including dive schools and a 50 metre swimming pool used by the UK Olympic Swimming Team.

**Theatres:** Within 10 minutes of school you can find two theatre schools plus a well-established youth theatre. Our association with local theatre schools helps us promote performance across our school. Two of our students have appeared on national TV for their dancing and singing skills and in 2016 the Cyprus representative in Junior Eurovision in Malta was one of our students.

**Sailing:** The natural environment on our doorstep has enabled us to offer sailing training courses in association with Paphos International Sailing Club, located just 500m from school. The 11 week course sees the students certificated in basic sailing techniques and water safety gaining an internationally recognised certificate awarded by the International Sailing Federation (ISAF).

**Yeronisos Island:** From the school it's possible to see the beautiful Yeronisos Island, an historic treasure house for Cyprus. Most of the island's surface is covered in ruins which date back to a time when Egypt ruled Cyprus, specifically to the time of Queen Cleopatra. For twenty years archaeologists have explored the hidden treasures on this island.

Every year a team led by an American archaeologist continues to excavate on the island just metres from our immediate coastline. Our students benefit from the knowledge and experience this team of experts have to offer through talks and presentations.

## Philosophy

TLC Private School's ethos is ever present in the daily life of the school but that doesn't mean that we don't continue to develop aspects of the ethos each day.

# Ethos

At TLC we have a very simple way to recognise the core elements of our school ethos - just experience the character of our school community on a day to day basis! In a school, the ethos is unseen but it is often felt and to be so it must be strong! When you visit TLC for the first time we know that, like many others before you, you'll experience it!

## Teaching:

We believe that our students deserve the best teachers who will deliver effective, stimulating and challenging lessons. We now invest in around thirty members of staff to teach and support our students. Regular professional development opportunities and an open mind on developments within education help our teachers to deliver the best innovative, exciting and challenging learning.

## Learning:

Many things impact on a child's ability to learn. Teachers, parents, classmates, resources and the environment all contribute to success and at TLC we monitor and report attainment and progress to ensure every child achieves their full potential.

## Community:

Our school is a community and exists within a community that is Cypriot with its strong emphasis on family. We enthusiastically embrace that culture and aim to foster a strong sense of family and identity so that the inevitable ups and downs that go along with any large family are celebrated and addressed as experiences through which all our students grow stronger emotionally. The happiness, safety and security of our students and staff is paramount and in order to achieve that we have personal development goals which associate with eight very important values that we feel are at the core of our school's very positive atmosphere.

Through the Personal Development Goals, students are encouraged to develop and demonstrate Resilience, Adaptability, Cooperation, Communication, Morality, Enquiry, Thoughtfulness and Respect. Some of these help the students to become good learners, others help them to become good people but all are important in the upholding of TLC's values.

We expect all parents to help us in developing and promoting these goals.

# Curriculum

**TLC Private School  
& Institute**

## TLC Kindergarten / Reception

The areas of Learning that are at the core of our Kindergarten and Reception experience are communication and language, physical development, personal development, personal social and emotional development, literacy and mathematics, understanding the world, expressive arts and design.

## Kindergarten / Reception

From 2½ years of age until they are 5, TLC students follow the UK's Early Years and Foundation Stage Programme that is designed to ensure that children learn and develop well and are kept healthy and safe.

During these very important preparatory years, the programme promotes teaching and learning to ensure children's 'school readiness' and gives them the broad range of knowledge and skills that provide the right foundation for their future progress through school and life. A child's early years experience at TLC is designed to ensure that they move smoothly into our Year 1 programme at the start of their official school journey.

The areas of learning that are at the core of our Kindergarten and Reception experience are communication and language, physical development, personal development, personal social and emotional development, literacy and mathematics, understanding the world, expressive arts and design.

Assessment of a child's attainment in these areas is based on classroom observation by our highly qualified and experienced staff who record outcomes against the English Early Learning Goals.

It is important to note that the transition from Reception into Year 1 is always smoother when a child has had the experience of our early years staff which includes UK trained qualified, teachers who have the skills and awareness to nurture the development of our youngest students. Year after year we see the outstanding impact of their work on a child's readiness for school.

## TLC Primary

At TLC Private School, we believe that teaching should be fun and engaging for the students to be able to gain meaningful learning from it and our pupils certainly enjoy their experiences

## Primary

From the start of the school year in which they will reach 6 years of age, children move into Year 1 of Primary School from where they follow the English National Curriculum plus Greek, progressing through primary and secondary education, leading towards English examinations at 16 and 18 years of age.

At TLC Private School, we believe that teaching should be fun and engaging for the students to be able to gain meaningful learning from it and our pupils certainly enjoy their experiences – we are often told by parents that they don't want to go home at the end of the day! Using a variety of teaching styles to deliver the curriculum objectives whilst differentiating to cater for the different needs of our pupils, we can ensure that whilst the day is fun, the pupils do go home each day having made great progress.

One of the benefits for students attending TLC's Primary School is that our secondary subject specialists are able to work collaboratively with the primary teachers and oldest students to enrich learning, particularly for the gifted and talented members of our community. This early secondary-type experience also prepares them by exciting them about the opportunities they will have when they reach the secondary stage.

*Our children continue to blossom and progress year to year and under these exceptional conditions, are surely destined for a great academic future. Thank you.*

*Lorene Ioannou*

**TLC Secondary**

To help all our students reach their potential, TLC Private School operates a comprehensive programme to encourage success.

## Secondary

A student's secondary school experience begins when they enter Year 7. This is the start of the school year in which they reach 12 years of age.

At TLC we believe that students learn best in small classes. All students are assigned a Form Tutor whose role is to ensure that their students are happy, working hard, completing homework, wearing the appropriate school uniform and attending school regularly. Secondary students enjoy separate breaks to the Primary School.

Their teaching takes place in modern air-conditioned rooms, some of which are specialist accommodation such as our Art Studio, Music Room, Science Laboratory and Computer Suite.

During the first three years of study (Years 7-9) pupils receive a broad general education to allow them to make informed choices about the subjects they wish to study further after the end of Year 9. This prepares them for the two year IGCSE and GCSE courses which they will follow during Years 10 & 11. English Language, Mathematics and one science are compulsory and students have the opportunity to choose an additional four subjects suited to their academic preferences, enjoyment and career choices.

Whilst Physical Education is offered as a GCSE option, this is a compulsory subject to ensure that all students maintain physical fitness. Personal, Social, Health, Education is also a compulsory but not examined subject delivered through the internationally acclaimed ASDAN scheme.

To help all our students reach their potential, TLC Private School operates a comprehensive programme to encourage success. Prize giving is an important event in our school calendar. It gives us an opportunity to celebrate the success and achievements of many of our students.

## TLC Sixth Form

TLC Private School is an approved examination centre. Students spend two years working towards IGCSE and GCSE courses prior to taking examinations. In Year 9, before students enter the first of those two years, they choose 4 course options from a wide range of subjects to add to the compulsory 3, making a curriculum of 7 subjects. English Language, Mathematics and one science are compulsory and students have the opportunity to choose an additional four subjects suited to their academic preferences.

## A Level

The A Level programme at TLC Private School combines small class sizes with expert tuition to ensure that students excel within their subjects and flourish in their future careers.

The A Level course here at TLC Private School offers students aged 16+ the chance to study with us for up to 2 years to gain qualifications which will help them access universities around the world. A Levels are recognised worldwide and are used as a condition of entry for universities in the UK, Europe and America, including some of the world's best universities; Oxford and Cambridge amongst others. Here at TLC Private School, students study in small classes to ensure that they benefit from close personal tuition, whilst also having the opportunity to share ideas with their peers.

TLC Private School prides itself on treating every student as an individual. Students have the opportunity to build their own bespoke timetable with additional options of supplementary study such as developing English Language skills.

TLC Private School also offers Exam Preparation and Careers Guidance. We also support students in deciding which A Levels they would like to take, advise them on opportunities to develop their learning outside the classroom and help them to build independent learning skills which are necessary for further study worldwide. In addition to the academic programme, students at TLC Private School are provided with a vibrant range of extra-curricular activities which supplement the curriculum. Students study in beautiful surroundings, close to the sea and the stunning Akamas National Park.

The Sixth Form at TLC Private School has been in operation for two years and has already seen students achieve success. Students have full access to our UCAS Coordinator who will work with them to identify suitable courses at universities across the world and suggest AS and A level options which will help them get there.

Additionally, TLC Private School offers a mentoring programme designed to ensure the students make the most of their opportunities at school, enabling them to progress smoothly to the next stage of their education. The school has a 'no one left behind' policy which means that teachers are always willing to offer one to one help or simply advice to ensure students make the most of their opportunities.

TLC Private School is an approved examination centre. Students spend two years working towards IGCSE and GCSE courses prior to taking examinations.

## Results

When looking at the exam results of TLC Private School, parents are reminded that whilst our results are good and compare well with the UK schools, we are not a selective school and that for many of our students, even gaining a pass at IGCSE is a big achievement. Whilst most achieve the grades which will see them progress to A Levels and beyond, for those that don't, they can still take pride in their achievements in gaining better results than they expected.

To help all our students reach their potential, TLC Private School operates a comprehensive programme to encourage success.

From the beginning of the year students are mentored through initial motivation and study skills workshops. Once formal lessons begin, six weekly assessment programmes monitor their performance through the curriculum. After school revision lessons begin as soon as school starts in September and are reinforced with a revision week in the Easter holidays which is always well attended. Mock exams are set and followed up with one to one interviews with the students who have the opportunity to discuss their performance in terms of strengths and weaknesses. Following this, a report is sent to parents followed by consultations on how they can be part of the 'triangle of success' which links student, teacher and parents together in a successful partnership. The mentoring programme is another way in which we aim to keep students on track for success.

June sees our annual Speech Day and Prize Giving Ceremony and it's a chance to celebrate all that is good in our school. The event is a very emotional occasion with student speeches based on their own experiences and related to their Personal Development Goals.

## Science Laboratory

## Computer Suite

## Specialist Accommodations

Teaching takes place in modern air-conditioned rooms, some of which are specialist accommodations such as our brand new Science Laboratory, Art Room and state of the art Computer Suite.

**TLC +**

Students at TLC who require more individual attention, are registered with our own support programmes which we call TLC+. This service is unique to TLC Private School and offers specialist support to those students with more pronounced learning needs as well as those who present as gifted and talented.

## TLC Music & Arts

- Vocal, Keyboard & Piano
- Art & Craft Clubs
- Drama

## Music & Arts

### Art

TLC Private School is fortunate to have a professional artist as its art teacher who is skilled in a variety of media. Students have the opportunity to work on individual pieces as well as being able to take part in community projects including the mural at Agios Georgios harbour and community artwork for the Pafos 2017 European City of Culture event.

Students' work has been entered successfully in local competitions including the Cyprus Russian Federation Children's Day event and the Tala Art Festival.

### Music and Drama

TLC Private School has a thriving music department with strong representation in the Primary and Secondary School choirs which perform at major local events, earning plaudits for the passion they put into their performance. Further outlets for our students' talents are provided through our Christmas performances and our hugely popular TLC's Got Talent Summer Show which has over eighty participants across the disciplines of song, instrumental and comedy. Music is ably supported by drama with LAMDA and Trinity Guildhall examinations available at school.

### Enrichment Activities

Rounding off our curriculum is a series of enrichment activities which the students can enjoy at the end of the school day. Linked to academic work through the skills they develop, the students can participate in many activities including: Art, Fun Science, Literature, Sport, Sailing, Revision Clubs, Robotics Club and more.

## Sporting

Whilst academic studies are important, at TLC Private School, we also believe firmly in a broad curriculum which includes many subjects and activities that help personal development and keep students healthy, safe and fit.

**TLC has a thriving sports department offering a range of sporting activities including:**

- Swimming
- Tennis
- Football
- Softball
- Golf
- Sailing
- Table Tennis
- Athletics
- Dance

The school plays an important part in the development of cricket on the island being linked to the Cyprus Cricket Federation. Links with the local sailing club provides opportunities for the older students to learn to sail in Laser Pico dinghies at nearby Agios Georgios harbour.

Tennis lessons are offered by a local professional tennis coach whilst links with Minthis Hills Golf Club offer our students the chance to become members of their Junior Golf Academy and develop their golfing skills. Parents may also become involved in golf and take up the option of joining our TLC Golf Society.

Further links with local musical theatre schools enable our students to learn many different types of dance and to have the opportunity to perform in shows locally and abroad. The school has its own swimming pool and students use it for six months of the year. The school hosts its own annual swimming galas which are well attended by the parents. Springtime sees our annual Sports Day held at the Peyia Municipality Stadium and students compete in both track and field events for the coveted House Cup.

Football is also very important at TLC Private School and we have our own football academy which is open to our students as well as young people from the local community. We regularly take part very successfully in games against local schools and those further afield including Private School in Limassol.

## Sailing Club

This year, the natural environment on our doorstep has enabled us to offer sailing training courses in association with Paphos International Sailing Club, located just 500m from school. The course sees the students certificated in basic sailing techniques and water safety.

Red Nose Day

Greek Independence Day Parade

'Music Together' Paphos | Peyia Square

Remembrance Day

## Community

TLC Private School and its students are constantly aware of the part we must play in the local community and through performance, fund raising and help in the community, we work hard to be effective community members. With support for cancer relief charities, performance at the Royal British Legion's Remembrance Day event at Paphos Harbour and at community care homes and fundraising events we ensure that we give back at least as much as the community affords to us.

# Summer School

## at TLC Private School

TLC Private School offers an action-packed educational experience at the start of the summer break.

TLC Summer School's activities are delivered by outstanding qualified teachers. Your child will have an opportunity to meet new friends whilst engaged in a fun and educational learning environment. TLC Summer School's exciting themes include, The Wild West, Under the Sea, Survival in Nature, Time Travellers, The Inventors Workshop and much more!

**Activities 4-6 years include:** Educational songs and games, literacy and phonics, arts and crafts, outdoor play, movement and exercise (including swimming).

**Activities 7-15 years include:** Arts and crafts, explore and discover, construction, team building games, sports, music and drama.

# The Wild West

## TLC Summer School

TLC Summer School's exciting themes include, The Wild West, Under the Sea, Survival in Nature, Time Travellers, The Inventors Workshop and much more!

## Transport

**TLC offers safe and secure transportation for students living in Paphos to and from the school.**

Our fully licensed drivers and comfortable and equipped coaches ensure your child has a safe and enjoyable journey to and from School.

**If they've passed you on the road, it's unlikely you will have missed our coaches!**

Our coaches enable us to travel to venues very easily for educational visits, university exhibitions, sports matches, etc. For some students this bus operates as a daily taxi to and from school. We pick up and return children to and from their homes for a very reasonable daily charge that can be calculated and included in fee illustrations if required.

Our school coaches are operated in accordance with the transport regulations in force on the island and for your reassurance, are driven by fully qualified drivers and maintained by qualified mechanics.

## Induction

TLC is an inclusive school and under the banner of Every Child Matters, works hard to ensure that every student achieves success, whether it be by academic results, sporting, creative or vocational success or simply by adding value to their education experience, assisting them in achieving their own personal potential. It is for this reason that we carry out an entry evaluation to assess both current abilities and likely needs in respect of their English language skills and other more general needs.

Older students are assigned mentors to help guide them through the important but often stressful exam years. The school year begins with a three day workshop on the focus, implementation and monitoring of the impact of the school's mentoring programme.

The workshops focus on study skills by identifying and recording the learning style of each student, directing them on how they might study and revise more effectively.

The third day concentrates on the motivation to learn and to succeed and is driven by the school's involvement with 'Thrive' which aims to ensure students are valued, involved and appreciated by challenging limiting beliefs that may impact on their learning. Each year, following the completion of the workshops, we see a significant change in the work ethic of the students and an acceptance that to succeed, they must work hard. The lessons learned from the workshops are reinforced each week in the school's PSHE (Personal, Social, Health, and Emotional) lessons which are driven by resources from the award winning ASDAN organisation. Lower down the school, ASDAN takes the form of learning to be a positive member of the school community, later on it asks students to consider their strengths and weaknesses, encouraging them to play to their strengths whilst working hard to overcome their weaknesses. As the students get older, the emphasis changes through being a positive member of the school community to being a positive member of the local, national and global community through project work.

## Student conduct

At TLC Private School, we are proud of our students and their demeanour. Promoted through the Personal Development Goals and developed through our policy of mutual respect, disciplinary issues are few and far between. High standards are achieved through expectations of students and few of them want to disappoint, meaning that all try their best in their studies and in their conduct.

A home/school agreement ensures our 'Commitment to Success' which calls upon parents, student and school to work together so that a child's time at our school helps them achieve at least their potential and in many cases, exceed it!

**House System:** At TLC we further encourage our students to develop a sense of community through the House System. Every student is placed in a house and through the year they support their fellow house members through their efforts by achieving across a wide range of activities. Our aim is to recognise that every child matters, every child can succeed and every child is valued at TLC for what they bring to the school as well as what they achieve individually – it is an holistic approach that emphasises our determination to meet the needs of every child and young person.

## Application Process

As an international school community we receive applications for school places from parents both in Cyprus and around the world. Many parents begin their search for a school well in advance of their intended move so we will accept applications well in advance of the intended date of admission. This is often reassuring for parents and leaves them free to focus on all the other tasks associated with relocation.

Our process starts with an enquiry, by phone or email via our website. Our Academic Registrar will communicate with you throughout the process, including the arrangement of the entry assessment, fees, school uniform, etc.

We work hard to be the best school we can be! We are deliberately not the biggest and the scope of the education we provide to our students, the support they get from dedicated professionals working hard on their behalf and the opportunities afforded to them to make the best of their individual talents, convinces us that there's no better school to study at than TLC Private School!

I joined TLC three years ago and it has been life changing. The TLC policy is that every child matters and it's true. I can't wait for the years ahead of me at TLC because I know they won't let me down.

**Every child truly matters.**

*~Year 9 Student at TLC Private School*

TLC Private School is proud to be a licensed and approved centre by  
**internationally recognised affiliates:**
